- And many more

# VIRENT IS REPLACING CRUDE OIL.

## WON'T YOU JOIN US?

Virent is applying clever chemistry to create the chemicals and fuels the world demands from a wide range of naturally occurring, renewable resources.

Using our patented catalytic chemistry, Virent is converting soluble biomass-derived sugars into products molecularly identical to those made with petroleum, including gasoline, diesel, jet fuel, and chemicals used for plastics and fibers.

By replacing crude oil, Virent is creating economic security, energy independence and a healthier world.

## REAL TECHNOLOGY FOR THE REAL WORLD

Consumers, and the companies who serve them, are demanding sustainable, earth-friendly alternatives to products processed from crude oil. Virent's technology creates products that can replace over 90% of the products made from petroleum.

Do you want to be part of the excitement, meeting the challenge of providing the renewable energy the world needs?

Join our team by applying online at [Virent.com](http://Virent.com).
